WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No.

PCT/AU2005/000208

Box	No. I	Basis of the opinion
1.		d to the language, this opinion has been established on the basis of the international application in the language in as filed, unless otherwise indicated under this item.
	the fo	opinion has been established on the basis of a translation from the original language into llowing language , which is the language of a translation furnished for the purposes of ational search (under Rules 12.3 and 23.1(b)).
2.		d to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the vention, this opinion has been established on the basis of:
	a. type of	material
		sequence listing
		able(s) related to the sequence listing
	b. format	
	\sqsubseteq	n written format n computer readable form
		filing/furnishing
		contained in the international application as filed.
	므	iled together with the international application in computer readable form.
	f	urnished subsequently to this Authority for the purposes of search.
3.	filed of	lition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been or furnished, the required statements that the information in the subsequent or additional copies is identical to that application as filed or does not go beyond the application as filed, as appropriate, were furnished.
4.	Additional	comments:

NOVELTY (N), INVENTIVE STEP (IS)

<u>Claims 1-17</u>: D1 and D2 represent the closest available art and disclose troughs or reflector housings that contain a plurality of tubes for heat exchange fluid. None of the cited documents disclose or suggest a plurality of relatively small tubes housed within an inverted trough for use above a field of reflectors in accordance with the claimed invention. Also, the claimed invention is not obvious in view of the cited art or the common general knowledge in the art. Hence the invention as claimed is considered both novel and inventive.
